

## Pain

S1

There you are again, returned to my den of sin.  
Traces of your last temptation beautify your skin.

The machinery is hungry, merciless and cruel,  
keep the fire breathing, your distress is the fuel.

S2

My sacrificial altar awaits your pleading flesh.  
We both know how it ends, your life turns into trash.

You already know what's coming, once again you'll walk the line.  
You await the sweet pain. Your body will be mine!

Refrain

**Sacrifice yourself for my desire,  
beg for your ignition, burst into a flame!  
Throw your bones into the fire,  
show me your submission - welcome to the pain!**
