

Preemptive obedience

S1

Of course you can do what they say. It's your choice.
Of course you believe what they pray. It's white noise.

Refrain

It feels so good! Feels good to belong.
It feels so good! To do nothing wrong.

To lick spit. To eat shit. Obedience, shame.
Let's celebrate democracy by bending it.
And let's protect democracy by ending it.

S2

They make it look like, like you have a choice.
They make it feel like, like they hear your voice.

Of course you can do what they say. It's your choice.
Of course you believe what they pray. It's white noise.

Preemptive obedience! Preemptive obedience!
Democracy of shame! Democrats of shame!
